

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

March 16 through 31, 2004

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **March 16-31, 2004**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Associate Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003

To: All CEQA Lead Agencies

From: Terry Roberts, Director, State Clearinghouse

Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CDs must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

<u>Documents Received on Tuesday, March 16, 2004</u>			
2004031078	Line 85 Pipeline Maintenance / Replacement Project Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento --Kern, Los Angeles The Central Valley Regional Water Quality Control Board, for the purpose of issuing Section 401 Water Quality Certification, is proposing a Mitigated Negative Declaration for the subject Project. The Project includes the replacement of 10 miles of transmission pipeline and 6.5 miles of distribution lines in Kern and Los Angeles Counties. The Line 85 transmission line presently lies along the Grapevine Creek / Interstate 5 corridor. As replacing the pipeline in-place would result in significant environmental effects, Sempra Energy Utilities / Southern California Gas Company proposes to replace the pipeline using the existing Line 225 corridor 2 miles to the east.	Neg	04/14/2004
2004031079	General Plan Amendment and Zoning Map Amendments, Shell Beach Road Pismo Beach, City of Pismo Beach--San Luis Obispo Change to the General Plan and Zoning Maps from Open Space to Residential. Amendment of General Plan policies LU-A-7 & LU-A-8 prohibiting development, of the affected lots, from blocking views of the ocean from Highway 101 and limiting subdivision of the existing parcels, to greater than three (3) additional lots.	Neg	04/14/2004
2004031080	City of Redondo Beach Categorical Exclusion Request Coastal Commission Redondo Beach--Los Angeles The City of Redondo Beach requests categorical exclusions from the otherwise-applicable permit requirement of the California Coastal Act, Cal. Pub. Res. Code §§ 30000 et seq., for residential and commercial properties and for demolition of minor structures in a public right-of-way within Coastal Zone Area One.	Neg	04/14/2004
2004031081	Construction of Vista Del Verde - Lakeview Avenue Pipeline Yorba Linda Water District Yorba Linda--Orange Construction of approximately 1200 feet of 36-inch Zone 4 Transmission Main within the extension of Lakeview Avenue, north of Bastanchury Road for the Vista Del Verde Village, III Residential Development.	Neg	04/14/2004
2004031082	Lincoln Avenue Congestion Relief Project Corona, City of Corona--Riverside On Lincoln Avenue, from Sixth Street to Pomona Road, and Pomona Road from Lincoln Avenue to SR-91 ramp, widening/channelization to provide for turning lanes and signal modifications in the City of Corona, Riverside County.	Neg	04/14/2004
2004031083	Fort Irwin - New Elementary School Project Silver Valley Unified School District --San Bernardino The Silver Valley Unified School District proposes to construct a New Elementary School on land located within the boundaries of Fort Irwin Military Reservation in Yermo, CA to house students residing within the base. The project includes a warehouse annex.	Neg	04/14/2004

<u>Documents Received on Tuesday, March 16, 2004</u>			
2004031084	City of Chowchilla - Housing Element Chowchilla, City of Chowchilla--Madera The proposed project includes the certification and adoption of an update to the City of Chowchilla Housing Element of the General Plan and its goals, policies, and programs related to housing in the County. Adoption of the Housing Element will not include the approval of any specific projects. Projects proposed in accordance with the adoption of the Element will be evaluated for individual impacts before their development.	Neg	04/05/2004
2004031086	CDP 03-41 - Dunn Property Storm Drain Replacement Carlsbad, City of Carlsbad--San Diego The project consists of replacement of a deteriorated and failed storm drain pipeline on private property. The original pipeline was part of storm drain improvements constructed in approximately 1965. The system was designed to collect storm drain runoff from the northern end of Highland Drive and direct it via a 24 inch underground pipeline down a steep slope to undeveloped portions of the Hosp Grove property. The upper portion of the slope has been affected by undocumented fill and subsequent erosion. Over time erosion has exposed portions of the galvanized steel pipeline. The exposed portions rusted, and pieces have broken off, resulting in accelerated erosion of the lower part of the slope.	Neg	04/14/2004
2004032087	Hansen / Whistler Timberland Conversion Forestry and Fire Protection, Department of --Sonoma This project consists of the issuance of a Timberland Conversion Permit exempting 16 acres of timberland from Forest Practice Act tree stocking (tree planting) requirements. The permittee is subject to the constraints contained in the application and plan, the conversion permit, the timber harvesting plan and supporting documentation. Prior to commencement of timber operations, the permittee shall comply with all applicable County, State and Federal codes, ordinances or other regulations and shall obtain all necessary approvals.	Neg	04/14/2004
2004032088	Site Development Permit SDP-D-8-04 and Grading Permit GP-58-03 (Industrial Welding Warehouse Project) Redding, City of Redding--Shasta The project sponsors, Thomas and Kerrie Largent, are requesting approval of a site development permit and grading permit to support the construction and use of a 14,400-square-foot metal warehouse building as an addition to an existing specialized metal- and iron-fabrication facility. The proposed warehouse would be used to provide covered storage of various raw materials, fabricated parts, finished products, and equipment. The building space may also be used occasionally for assembly of parts, although it would be used primarily for storage. Many of the items to be stored inside the proposed building are now kept outdoors in a fenced yard, exposed to the elements. Thus, the warehouse would provide additional shelter for parts of the existing operation. Large grading and fill work would be needed to prepare the building site, which would be located to the rear of the existing shop building. Approximately 12,000 cubic yards of fill and 300 cubic yards of excavation are proposed at the head of a small natural ravine to support the building, with additional pavement to support large-truck access, parking, and a replacement outdoor storage area. An existing 30-inch-diameter public storm-drain pipe would be extended beneath the fill area for a distance of roughly 190 feet.	Neg	04/14/2004

	Additional project details are provided in the attached Initial Study Checklist.		
2004032089	Application of the Aquatic Herbicide Acrolein in Conformance with Aquatic Pesticides Application Plan (APAP) Byron Bethany Irrigation District --Alameda, Contra Costa, San Joaquin BBID proposes to apply Magnacide H Herbicide, an aquatic herbicide containing the active ingredient acrolein, to control algae and aquatic weeds and canals within its service area. The project includes the application of acrolein to canals, in conformance with an Aquatic Pesticides Application Plan (APAP).	Neg	04/14/2004
2004032090	Westside Place (GPA/RZ 03-03, S/PDP 03-02, and Annexation) Chico, City of Chico--Butte 1. General Plan Amendment & Rezone to change the General Plan land use designation for 3 parcels totaling 32 acres from Manufacturing & Warehousing to Medium Density Residential and to change the zoning from ML (Light Industrial) to RZ Medium Density Residential. 2. Subdivision of 20 of the 32 acres into 141 lots for a mixed-use development. 3. Annexation of the 3 parcels, as well as 9 intervening parcels, into the Chico City limits.	Neg	04/14/2004
2004031085	2004 Palace Indian Gaming Center Expansion Santa Rosa Rancheria Tribal Council Lemoore--Kings Expansion of an existing Class III Gaming Facility, at the Palace Indian Gaming Center. Construction of a three-story 177,000 square foot replacement casino and a seven-story 250-room, 245,000 square foot hotel.	TRI	04/05/2004
1997022074	Draft Supplemental to the Revised Twelve Bridges Specific Plan SEIR Lincoln, City of Lincoln--Placer The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number 2004-0042-R2 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Del Webb. The project consists of piping the existing open, concrete-lined NID ditch. Pipeline will be placed into the existing channel in some areas, and re-aligned (straightened) at stream bends. A second connection/continuation of the ditch to the pine will be done upon approval of the USACE 404 permit with corresponding mitigation.	NOD	
2000022106	Amador Water Transmission Project Amador Water Agency Jackson--Amador The Amador Water Agency completed and certified the Final EIR for the Amador Transmission Project on May 15, 2001, and filed a Notice of Determination on May 17, 2001. On October 9, 2003, the Agency approved minor changes to the alignment of the water transmission pipeline and changes to the method of installation of the raw water service pipeline in the Amador Canal, approved an Addendum to the Final EIR respecting such changes and authorized the filing of a Notice of Determination, which was filed on October 14, 2003. The Agency subsequently has approved a further change to the alignment of the water transmission pipeline ("Project Change").	NOD

2002022004	<p>Silicon Valley Rapid Transit Corridor-BART Extension Santa Clara Valley Transportation Authority Milpitas, San Jose, Santa Clara--Santa Clara, Alameda</p> <p>The project consists of an approximate 16.3-mile extension of the BART system, which would begin at the planned Warm Springs BART station in Fremont, extend along the Union Pacific Railroad line to Milpitas, and then continue to 28th and Santa Clara Streets in San Jose. From there, BART would leave the railroad right-of-way, tunneling under downtown San Jose to the Diridon Caltrain Station. The BART extension would then turn north under the Caltrain line and terminate at the Santa Clara Station.</p>	EIR	05/14/2004
2003081056	<p>El Centro Wal-Mart El Centro, City of El Centro--Imperial</p> <p>The El Centro Wal-Mart #1555 includes the development of a retail store consisting of a total of approximately 203,007 square feet (sf), with all appurtenant structures and facilities for the sale of general merchandise, groceries and liquor, including but not limited to, a gas station/convenience store, a garden center, truck docks and loading facilities, tire and lube facilities, outdoor sale facilities, outside container storage facilities, rooftop proprietary satellite communication facilities and parking. The store may contain, but is not limited to, a pharmacy, vision care center, food service center, photo studio, photo finishing center, a banking center and arcade. The Wal-Mart Supercenter may, among other things, carry pool chemicals, petroleum products, pesticides, paint products, firearms and ammunition. The projected cumulative total building area for the commercial Supercenter is approximately 250,007 sf. In addition to the main retail store, smaller retail outlets would be developed on the smaller lots, also referred to throughout this report as outparcels. The site would be subdivided into six outparcels and a gas station. Outparcel 1 would be 2.18 acres, Outparcel 2 would be 1.62 acres, Outparcel 3 would be 2.04 acres, Outparcel 4 would be .83 acres, Outparcel 5 would be 1.14 acres, Outparcel 6 would be 1.19 acres. The gas station would be 1.60 acres.</p>	EIR	04/30/2004
2003081065	<p>St. Andrew's Presbyterian Church Improvements Newport Beach, City of Newport Beach--Orange</p> <p>St. Andrew's Presbyterian Church is requesting approval of a General Plan Amendment that would allow for an increase in floor area above that currently permitted and Amended Conditional Use Permit for expansion of their current facilities. In addition, the project is subject to the City's Traffic Phasing Ordinance requirements. It approved, the discretionary actions identified above would allow the demolition of two existing buildings and the construction of two structures, including a gymnasium/fellowship hall and classroom buildings, resulting in a total of 140,388 square feet of floor area on the site (i.e. an increase of 35,566 square feet). In addition, a subterranean parking garage is proposed.</p>	EIR	04/30/2004

2004031089	Desert Knolls Wash Improvements San Bernardino Flood Control District Apple Valley--San Bernardino The County of San Bernardino Flood Control District (District) has proposed improvements to the Desert Knolls Wash, including excavating and reshaping the Wash, and lining it with concrete to create a definitive storm water channel 30 feet wide by approximately 6,600 feet in length. In addition to the creation of a storm channel, the project includes development of an access road and chain link fence along with 6,600-foot length on both sides of the channel. This would allow the District access to the channel for maintenance and keep trespassing to a minimum. Project improvements would eliminate exposure of people and property to flooding due to current conditions of overflow of the Desert Knolls Wash.	Neg	04/15/2004

	Parking Lot Located near Pardee Drive and Swan Way. The ordinance is proposed to be amended to allow the parking lot operation to continue indefinitely on a portion of the 34-acre site, approximately 18.5 acres, and to allow storage of automobiles, trucks, boats, recreational vehicles, trailers, portable classrooms, office trailers and modular building units on the remainder of the site. The applicant has agreed to a 25 foot setback from the fence line and a 15 foot height limit from grade for all storage use. The Port may also divide the parcel into two separate lots. Such division would not change the use not would it create an physical changes to the environment.		
2001102081	Tract 8438 Hidden Oaks Subdivision Lafayette, City of Lafayette--Contra Costa The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement (1600-2003-5303-3) pursuant to Section 1602 of the Fish and Game Code to the project applicant, Brue Smith/Lafayette Associates LLC. The applicant proposes to construct a 21-unit residential development located on a 14.3 acre parcel at the confluence of Reliez Creek and Las Trampas Creek at 2880 Kinney drive in Lafayette, Contra Costa County. In conjunction with the residential develoment, the Operator proposes to install a storm drain outfall into Las Trampas Creek and fill the 764-linear foot "Leland access ditch" for construction of an access road.	NOD	
2004012082	Cerrito Creek Greenway Phase II El Cerrito, City of El Cerrito--Contra Costa The Phase II project implements the 0.6 mile portion of the Cerrito Creek Greenway in the City of El Cerrito to link the Ohlone Greenway to Creekside Park. It includes construction and designation of four key pedestrian and bicycle route/lane segments. Benches, signage and landscaping will also be installed. The full Greenway will continue to the Bay Trail, via El Cerrito, Richmond and Albany.	NOD	
2004012138	Tentative Subdivision Map S-2-03, Autumn Glen Subdivision Redding, City of Redding--Shasta Divide 23.2 acres to create a maximum of 48 lots with single-family homes constructed on 35 lots and duplexes constructed on 13 parcels.	NOD	
2004039042	Batewam Site Plan, S03--34, AD 03-040, Log No. 84-10-008H San Diego County --San Diego The project proposes a single-family residence and a driveway in julian Estates. The project will be served by an on-site sewage disposal system and will obtain water through a proposed well. The project site is a 4.85 acre parcel, designated as lot number 30 on the previously approved TM 4489. A large portion of the property is restricted by an open-space easement, which was part of the mitigation measures for biology in the previously certified EIR. All proposed development for this Site Plan is located outside the boundaries of the open space. Their action is being reviewed pursuant to a "D" Designator Ordinance 7175.	NOD

2004039043	Vesting Tentative Parcel Map 31102 (02-495) Murrieta, City of Murrieta--Riverside CDFG is executing a Lake and Streambed Alteration Agreement (SAA#1600-2003-5038-R6) pursuant to Section 1603 of the Fish and Game Code to the project applicant, Ms. Charlene Kussner, of Murrieta 492, LLC, 1105 Quail Street, Newport Beach, 92660. For Tentative Parcel Map 31102 (02-495), the Operator is proposing to develop approximately 27.34 acres into three parcels and construct 25 multi-family apartment structures including 492 apartment units, parking, and recreation areas, and supporting infrastructure. Total project impacts are 0.10 acre of jurisdictional channel and southern willow scrub habitat.	NOD	
2004039044	Tentative Tract 14715 San Bernardino, City of San Bernardino--San Bernardino CDFG is executing a Lake and Streambed Alteration Agreement (SAA#1600-2004-0019-R6) pursuant to Section 1603 of the Fish and Game Code to the project applicant, Mr. Mark Gardner of Gardner Construction, 555 Cajon Street, Suite G, Redlands, CA 92373. The applicant is proposing to grade and develop approximately 15.75 acres into a residential development of 59 lots and supporting infrastructure. Project impacts to jurisdictional waters and sparse herbaceous vegetation include permanent impacts of 210 square feet of or 0.005 acre, and 900 square feet of temporary impacts or 0.02 acre. Total project impacts are 0.025 acre.	NOD	
2004039047	Deadwood Creek Fish Passage Improvement Project Trinity County Planning Department --Trinity The project will improve fish passage through the existing culvert on Deadwood Creek at Deadwood Road through a series of actions which include the installation of baffles within the existing culvert, the installation of an overflow pipe above the existing culvert, and the construction of two backwater weirs immediately downstream of the culvert outlet. The project will restore access to approximately two miles of anadromous habitat upstream of Deadwood Road; increase the culvert cross-sectional area by 40%, allowing flood flows to pass more safely through the stream crossing and preventing or minimizing a potential 3,500 yd3 of sediment delivery to Deadwood Creek.	NOD	
2004049018	Lake or Streambed Alteration Agreement for Notification #03-5229 Redding, City of Redding--Shasta Project proposes to realign a seasonal stream, and construct a detention basin and outfall structure on an unnamed tributary to Stillwater Creek, tributary to Sacramento River, Shasta County, in connection with construction of Unit 8 of Hacienda Heights Subdivision.	NOD	
2004038315	Anza-Borrego SP - New Combination Building at Horse Camp Parks and Recreation, Department of --San Diego The project will replace an existing restroom facility with a new ADA compliant facility. The septic system will also be replaced. Minor site grading and reconstruction will be necessary.	NOE

<u>Documents Received on Wednesday, March 17, 2004</u>			
2004038316	Canyon Trail Bridge Placement Parks and Recreation, Department of --Sonoma Project will place a footbridge across a drainage along Canyon Trail at Sugarlog Ridge State Park. This drainage is very slippery due to high volumes of water coming from culvert outflows from the paved entrance road to the park. The bridge will be relocated from another location, and is 16 feet long and constructed to ADA standards, although the trail itself is not accessible due to many constructed stairs along the trail. The bridge will be placed 3 1/2 feet above the drainage, and anchored in cement abutments that are 2' x 4' in size, anchored 2 1/2 feet into the ground with rebar.	NOE	
2004038317	Oso Creek & Star Drive Trail Staging Area Laguna Niguel, City of Laguna Niguel--Orange Development of a multi-purpose trail staging area on Caltrans property adjacent to the San Joaquin Hills Transportation Corridor, including a driveway from Star Drive, paved parking spaces, table, sun shade, water fountain, rail-fencing, landscaping, drainage facilities and a sign kiosk.	NOE	
2004038318	Kim Bridge Fish & Game #3 Santa Rosa--Sonoma Construction of a 28-foot long, 15-foot wide free-span bridge across an unnamed seasonal stream, locally known as Pine Creek. Issuance of a Streambed Alteration Agreement Number 1500-2003-5171-3 pursuant to Fish and Game Code Section 1602.	NOE	
2004038319	Las Trampas Creek Bridge Retrofit Fish & Game #3 Walnut Creek--Contra Costa The project is the seismic retrofitting of the Las Trampas Creek bridge, located on South California Boulevard, 0.1 miles north of Newell Avenue in downtown Walnut Creek, Contra Costa County. The existing bridge is a three-span, continuous steel girder bridge deck that was constructed in 1957. It consists of a reinforced concrete bridge deck supported on widely spaced steel girders and is supported on multi-column bents and seat abutments founded on driven piles. The superstructure span configuration is 35 feet - 60 feet - 35 feet with a total length of 130 feet. It carries four lanes of traffic, and has a width that measures 52 feet from curb to curb with two, 6-foot sidewalks for a total width of 64 feet. Issuance of a Streambed Alteration Agreement Number 1600-2003-0581-3 pursuant to Fish and Game Code Section 1602.	NOE	
2004038320	Nicholls Bridge Replacement Fish & Game #3 St. Helena--Napa The Operator proposes to install a bridge, to replace a failed bridge, across Maxwell Creek located at 4553 Chiles Pope Valley Road, St. Helena, Napa County. The bridge that was in place has now collapsed into the creek and the concrete abutments are still within the creek. The western abutment is leaning into the creek bed and is on the verge of collapse. The old bridge will be removed and the new freespan bridge will be built in the same location. Issuance of a Streambed Alteration Agreement Number 1600-2003-5333-3 pursuant to Fish and Game Code Section 1602.	NOE

2004038341	<p>Angel Island Raccoon Control Parks and Recreation, Department of --Marin</p> <p>Reduce large population of raccoons found primarily in day use area of Angel Island State Park including Ayala Cove, Camp Reynolds, Fort McDowell and the Immigration Station. Animals will be live trapped and euthanized. Trapping will take place during evening hours when very few park visitors are present. The initial control effort will continue for 10 days. The reduction program will be evaluated at the completion of this effort by the resource ecologist staff prior to continuing the work. The final number of animals to be removed will be based on the population estimate achieved through the trapping program. Control efforts will be necessary in future years and will take place only after evaluation by resource ecologist staff. This project protects public health and safety, and supports continued facility use and maintenance.</p>	NOE	
2004038342	<p>Steep Ravine Ground Squirrel Control Parks and Recreation, Department of --Marin</p> <p>Reduce the large ground squirrel population in and around the cabin site area at Steep Ravine at Mt. Tamalpais State Park. Where burrows are located adjacent to rock outcrops zinc phosphide squirrel oat bait will be placed in the burrows. Other burrows will be treated with fumitoxin, a fumigant available in tablet form. These treatments do not pose a secondary poisoning threat to non-target wildlife nor will they expose park users to toxic substances. One treatment event will provide adequate control but re-treatment may be necessary in following years. A very high percentage of effected animals will remain underground after contact with the pesticides. Project protects public health and safety and supports continued use and maintenance. The reduction program will be evaluated each year by the resource ecologist staff prior to continuing with the work. Any animal carcasses found above ground will be immediately removed by park staff.</p>	NOE	
2004038343	<p>Norway Rat Control - Samuel P. Taylor State Park Parks and Recreation, Department of --Marin</p> <p>Reduce the large Norway rat population in and around camping and day use locations at Samuel P. Taylor State Park. An anticoagulant rodenticide will be installed in bait stations in a manner that ensures that the rats must consume it within the stations. The stations will be secured to the ground and will be placed in dense vegetation adjacent to campground and day use locations. The bait stations will be tamper resistant and designed to allow access by rats and smaller rodents only. The stations will be in place for approximately 6 months, starting in April 2004. This treatment poses some level of threat to non-target wildlife that may access the bait stations but the impact to any specific population will not be significant. Secondary poisoning of wildlife will not be a threat. The treatment will not expose park users to toxic substances. Park staff will immediately remove any animal carcasses found with public use areas.</p>	NOE	
2004038344	<p>Campground Host Site - Orchard Hill Loop Parks and Recreation, Department of --Marin</p> <p>To construct a new campground host site in the Orchard Hill loop between sites 32 and 37. Utilities including water, sewer, and electricity to be installed underground in connection to a restroom/shower building remodel underway. Site to be leveled and paved with asphalt concrete. Work will meet DPR ADA campsite standards.</p>	NOE

2004031101	Tentative Tract Map 02-01 - Liguori Subdivision Poway, City of Poway--San Diego The project proposed the subdivision of approximately 500 acres into 31 legal lots (29 single-family home residential lots and 2 open space lots). The applicants existing single family home is located on-site and will be incorporated as Lot 23, consisting of 18.7 acres, into the proposed subdivision. The applicant/subdivider plans to develop (grade) and sell the 28 residential lots. The lots will range from 4 to 18.7 acres in size. A majority of the lots will be approximately 4 to 5 acres in size. The project proposes 2 open space lots consisting of a combined acreage of approximately 327 acres. Open space easements will be granted to the City of Poway, the U.S. Fish and Wildlife Service, and the California Department of Fish and Game over these open space lots. The site is characterized as a mountain meadow configuration with a large gently sloping central valley bordered on the north and south by steep slopes. This central area has been farmed and grazed over the past 50+ years.	NOP	04/19/2004
2004032103	Tentative Map, TR 7267 Alameda County --Alameda The proposed project would include: * Demolition of all existing structures on the site; * Grading of the subject property;	NOP	04/19/2004

2004038346	Fiber Optic Line Installation, Folsom Lake SRA Parks and Recreation, Department of --Sacramento This project consists of Sacramento Municipal Utility District (SMUD) installing a fiber optic line on existing but non-active 12kV power poles in the vicinity of Nimbus Dam within Folsom Lake State Recreation Area. The fiber optic line will service both Bureau of Reclamation and Western Area Power Administration needs. The project will install the fiber optic line on a line of five existing poles from Hazel Avenue to the Nimbus Substation. One new pole needs to be installed as part of the project. A crane will be used to install the new pole and will be operated on previously disturbed areas. Other than the crane used to install the new pole, vehicles and machinery will be limited to existing paved pathways and parking areas. The line will be carried by hand between the poles for installation to eliminate the need to drive trucks and heavy equipment off of existing paved roads. A buffer zone will be established to prevent disturbance within 20 feet of the dripline of an existing elderberry bush between pole 4 and pole 5.	NOE	
2004038347	Streambed Alteration Agreement concerning Sorrento Creek Fish & Game #5 San Diego--San Diego The Operator proposes to alter the stream to clean and repair approximately 8,717 linear feet (1.7 miles) of existing 18-inch and 24-inch poly-vinyl chloride and 10-inch and 18-inch vitrified clay sewer pipe from existing manholes. Work will be accomplished using all surface vehicles and 4 wheel drive truck or trailer-mounted bucketing and/ or rodding equipment. Equipment access will utilize existing unvegetated access paths throughout the project area where they exist, and vegetation will be trampled, cleared, and/or graded where necessary. Minor grading within jurisdictional areas will be required in several locations to smooth out uneven terrain enough to allow equipment to pass and widen the path to an average 8-foot width. Narrow gullies may be spanned and crossed without grading.	NOE	
2004038348	Streambed Alteration Agreement concerning Carroll Canyon and unnamed tributaries to Carroll Canyon Fish & Game #5 San Diego--San Diego The Operator did alter the stream to install a crossing using native earthen material sometime after 1997, filling approximately 0.02 acre of unvegetated channel. The Operator proposes to alter the stream to excavate four ephemeral streams that are tributary to Carroll Canyon Creek as part of an ongoing aggregate mining operation, and to remove asphalt debris along over 8,000 linear feet of Carroll Canyon Creek and a tributary to Carroll Canyon Creek.	NOE	
2004038349	Earthquake Retrofit of Sam Jones Bridge U.S. Army Reserve --Monterey Earthquake retrofit/rehabilitate bridge by strengthening existing piers and abutments, installing steel girder restrainers, cleaning and repainting the existing steel bridge components, removing and recompacting approach roadway fill material, and placing rock slope protection materials. 2004038350	<p>Horsepark Sewer Drainage System 22nd District Agricultural Association San Diego--San Diego</p> <p>The Horsepark property is owned and operated by the State of California 22nd District Agricultural Association (DAA). The Del Mar Horsepark, located two miles east of the Fairgrounds between Via de la Valle and the San Dieguito River, functions year round as a public equestrian facility used for training and stabling horses, as well as hosting competitive events. The Del Mar Horsepark offers two grass jumping stadiums with seating for 2,500, a covered and lighted arena, four show rings, cross county jumping course, dressage ring, four training rings, operations office trailer, and a show season office trailer. Horsepark provides temporary stabling for approximately 8,040 horses during the show season and approximately 230 horses in permanent box and pipe stalls for year-round boarding and professional training. The Horsepark property is bordered on the north by Via De La Valle with residential uses north of the road, the San Dieguito River and agricultural land to the south, Camino Real to the east, and an undeveloped parcel to the west. Due to its location within the San Dieguito River Floodplain, and the need for flexibility to arrange a variety of events, the structures on the Horsepark property are temporary (movable) in nature.</p> <p>Currently, main horse wash areas at Horsepark drain into existing bio-swales in the center of the site that filter urban pollutants prior to discharging into the San Dieguito River. The bio-swales are sloped to reduce runoff velocity such that runoff is absorbed by the plant-life and ground to avoid potential runoff impacts to the River.</p> <p>In addition to two permanent restroom buildings on the north side of the property, which are connected to the San Diego Municipal sewer system, Horsepark currently utilizes portable toilets that are serviced by the Fairgrounds every Monday and Friday. When Horsepark hosts an event during the weekend, the portable toilets are serviced on Saturday and Sunday. Maintenance staff is notified of upcoming events at Horsepark and arranges the portable toilets to be serviced each day of an event. Servicing involves pumping the holding tank contents into a pump truck, which empties the contents into the existing sewer system.</p> <p>The San Diego Regional Water Quality Control Board (RWQCB), in a letter dated October 11, 2002, alleged the DAA was in violation of waste discharge requirements at the Del Mar Fairgrounds and Racetrack and recommended that all drainage areas and restrooms on the Horsepark property be connected to a sanitary sewer system and all portable toilets be removed from the property. In response to this recommendation, the DAA proposes to extend the sanitary sewer drainage system and remove all portable toilets from the site.</p> <p>The proposed sanitary sewer system at Horsepark will connect all horse wash rack areas and restrooms to an extended sewer line in the Horsepark property. Figures 1a and 1b illustrate the proposed sewer project, which will not exceed one-mile in total length. The new sewer lines will connect to an existing sewer main line in Via De La Valle. Due to the site's lower elevation, a sewer lift station will be installed at the south end of the property to allow the system to function effectively. In order to service the current discharge capacity at the Horsepark property, the proposed sewer system will utilize pipelines that are no greater than six inches in diameter. The pipeline diameter has been sized to support the current discharge capacity of existing Horsepark operations only. As such, the proposed sewer system will not result in an increase in sewer capacity of the site or surrounding development.</p> <p>The proposed sewer alignment lies completely within the developed portions of the project site. As such, direct environmental impacts will not occur from long-term</p>	NOE

	operation of sewer project. Due to the location of the adjacent San Dieguito River, a wetland delineation report was prepared by Rocks Biological Consulting in January 2004. As illustrated in Figures 1a and 1b, the proposed project is situated outside jurisdictional wetlands. Furthermore, all construction will observe a minimum 110-to 150-foot setback from mapped wetlands, thereby avoiding short-term construction impacts to adjacent jurisdictional wetlands. Therefore, the proposed sanitary sewer system will not result in a significant impact on the environment.		
2004038352	DRILL AND EQUIP TWO NEW DRINKING WATER WELLS, WELL W11 AND WELL 206 Health Services, Department of - Metropolitan District --Los Angeles Drill and equip two new drinking water wells, Well W11 and Well 206, to replace two existing wells, Well W6 and Well 157, respectively.	NOE	
2004038353	San Luis Child Development Center Los Banos, City of Los Banos--Merced Construction of a 22,000 square foot early childhood facility with eight classrooms, community room, kitchen, offices, and playgrounds. The Project will be built in two phases. The first phase is comprised of 15,000 square feet. The second will be constructed after the first phase has been built and additional funding is secured.	NOE	
2004038354	Mosle Single Family Home Fish & Game #3 Danville--Contra Costa The Operator proposes to install 32 lineal feet of 10-inch PVC pipe and an energy dissipater within an unnamed tributary to Alamo Creek at 1591 Lawrence Road, in the City of Danville, Contra Costa County. The storm drain line will be used to convey water from the new home site. The depth of the pipe will be approximately 3 feet deep. Issuance of a Streambed Alteration Agreement Number 1600-2003-5257-3 pursuant to Fish and Game Code Section 1602.	NOE	
2004038355	Pond Restoration and On-Farm Runoff/Erosion Project Fish & Game #3 Monterey--Monterey Sediment has accumulated in an unnamed pond, approximately 500-feet long and from 50 to 150 feet wide, reducing the depth from its original depth of 4 to 5 feet to its current depth of less than 1 foot. The proposed project would remove sediment from the pond using an excavator, dozer, or loader. The sediment would be placed in a dump truck for removal and spread on adjacent upland agricultural lands and used to construct farm basin berms. The pond would be restored to approximately 60 percent of its original capacity. No willows or other riparian trees along the margin would be removed, although a few small willows less than 3-inches diameter at breast height and growing in the ponded area would be removed. A channel approximately 150-yards long, 5-feet wide, and 3-feet deep, flows parallel to the road and leads into the pond. The right bank (looking downstream) of the channel would be graded toward the field to provide stable slopes and reduce sediment deposition within the pond. All exposed and/or disturbed banks would be revegetated using a mix of native grasses, shrubs and trees. Construction would occur after the breeding season to minimize disturbance to nesting birds. Access to the site would be via existing roads. Issuance of a Streambed Alteration Agreement Number 1600-2003-0649-3 pursuant to Fish and Game Code Section	NOE

2004038357	Sycamore Mineral Springs, See Canyon and San Luis Obispo Creek Vegetation Maintenance Fish & Game #3 San Luis Obispo--San Luis Obispo San Luis Obispo Creek is a deeply incised perennial stream originating near the Cuesta Grade and flowing through the City of San Luis Obispo before tributarying to the Pacific Ocean near Avila Beach in San Luis Obispo County, California. The project site is dominated by Vinca, German ivy, poison hemlock, and other non-native and invasive vegetation. The proposed project would remove these exotic plants and dead and downed woody material from the stream banks. Some willows may be cut on a selective basis. A canopy would be retained over the creek to shade the creek. All vegetation would be trimmed using hand tools, then loaded into a rubber-tired loader and removed from the site. The project is necessary to reduce the likelihood of debris dams forming and causing or contributing to localized flooding, and to maintain a riparian buffer strip consisting of native vegetation. Issuance of a Streambed Alteration Agreement Number 1600-2003-5367-3 pursuant to Fish and Game Code Section 1602.	NOE

2002111107	Upper Little Lake Habitat Restoration and Enhancement Project Fish & Game #7 --Inyo The project objectives are to increase habitat diversity on the property and provide habitat for a variety of species. The goals of this project are to preserve 90 acres of lacustrine wetlands, enhance habitat for waterfowl on 10 acres of palustrine emergent wetlands, and enhance riparian habitat along a 1.6-mile long creek corridor. Associated benefits will also occur on about 220 acres of wetland-associated uplands. Restoration of water control facilities will allow the six wetlands to be managed for increased food production and cover for waterfowls. This will improve migratory and wintering habitat for waterfowl and other waterbirds. The project will remove nonnative vegetation and enhance a riparian corridor at ULLR. The project will also enhance foraging habitat and cover conditions for upland game species by removing herbaceous vegetation, establishing native vegetation, and periodically irrigating selected areas.	FIN

	construction of the concrete piers.		
2004038387	Reconfigure the SR 273/Ox Yoke Road intersection Caltrans #2 Anderson--Shasta Caltrans and the City of Anderson will reconfigure the SR 273/Ox Yoke Road intersection, improve highway operations, and upgrade the railroad warning devices. The project is needed to improve safety. The fatal plus injury accident rate is about six times higher than the statewide average for similar types of roadways. Work scope includes installing traffic signals, including video image processing for vehicle detection and railroad preemption; adding intersection safety lighting; adding and lengthening turn lanes on SR 273; upgrading drainage facilities; and adding designated AA-compliant pedestrian facilities that connect to existing sidewalk on Ox Yoke Road. The improved turn lanes will be consistent with other signalized intersections on SR 273. Ox Yoke Road will be widened to accommodate a WB right turn lane and bicycle lane. An optional disposal site at Sha 5 PM 17.3 has been approved for this project. Highway 273 has been unidentified as one of the state routes that may have accumulated Aerial Deposited Lead (ADL). ADL exists because of the historic use of lead additives in gasoline. The combustion of gasoline with lead produces lead particulate, ADL, which over time accumulates along roadways. At present, ADL studies along Route 273 are underway. If ADL is found, the contract for this project will include special provisions for the identification, excavation, handling, and off-site disposal of ADL contaminated soil. These special provisions will require development of a Lead Compliance Plan, implementation of worker lead awareness training, and sampling and analysis of excess material prior to export and disposal.	NOE	
2004038388	Robert Frost Park Facilities Sacramento County --Sacramento The District proposes construction of a 40' by 30' picnic area with 8 picnic tables, and 2 barbeques desigend to accommodate 55-65 people, a 1,100 square foot concession building with two resrooms and storage areas, a half court basketball court, and landscaping and irrigation in accordance with the Robert Frost Park Master Plan.	NOE	
2004038389	Carter Residence Fence Use Permit Sacramento County --Sacramento The proposed project consists of a Use Permit to allow an existing fence (retaining wall) to exceed six feet in height along the interior property line to the north. The 1.4+/- acre site is located within the Garden Highway Special Planning Area (SPA). Note: The existing fence was constructed in conjunction with a single-family development approved by the Planning Department on April 24, 2002 (Control number 01-PSS-0423).	NOE	
2004038390	Pepsi Fence Use Permit Sacramento County --Sacramento The proposed project consists of a Use Permit to construct a 10-foot high block wall topped with three strands of barbed wire along the south property line of a bottling plant in the M-1 (NPA) zone. The wall would be an extension of an existing wall along the same property line.	NOE

2004038392	Sacramento Executive Airport Airfield Pavement Reinstallation and Electrical Sacramento County --Sacramento The project proposes to repave the existing aprons (Terminal and FBO), taxiways (D, E, and H), and runways (12-30 and 2-20) at Executive Airport. New conduit will be installed under the existing Terminal apron. The conduit will run from the airfield lighting vault to the runway area. Taxiway edge lighting will be installed approximately 10 feet off of the existing pavement along taxiways E, H, and W. There is currently an 8 to 10 foot wide shoulder along the three taxiways. All construction will occur on existing facilities except where the taxiway shoulder is less than 10 feet wide. However, the placement lights only two feet beyond the existing taxiway represents negligible expansion. On-site surveys performed 5/16/03 failed to find any wetlands or listed species within the project area. No trees will be removed.	NOE	
2004038393	Ceccarini Parcel Map and Lot Reduction Permit Sacramento County --Sacramento The proposed project is a request for a Parcel Map to create 4 lots in the AG-80 zone (one large lot is designated as a remainder lot), and a Lot Reduction Permit to allow 2 lots less than the required minimum. Development rights will be granted to the County on the two large lots so as not to exceed the density allowed.	NOE	
2004038394	Banks Lot Reduction Permit and Tentative Parcel Map Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Lot Reduction Permit to allow the creation of a 1.4+/- acre parcel in the AG-20 zone and a Tentative Parcel Map to divide 22.5+/- acres into two parcels of 1.4+/- acres (Parcel 2) and 21.1+/- acres (Parcel 1). The applicant will be dedicating development rights to the County of Sacramento for Parcel 1.	NOE

	until after the rainy season. This condition forces traffic which normally ravel these roadways to use alternate, less direct routes including I-210. This condition not only increases travel distances for the vehicles using these roadways, but adds to congestion on I-210 especially during the morning and evening peak travel periods. Additionally, the temporary river crossings result in substantial maintenance costs which permanent all-weather structures would significantly reduce. The purpose of this project is to replace the temporary river crossing structures with permanent, all-weather crossing structures to return these roadways to their previous reliable condition.		
2004031127	ENV-2002-7456-MND, Church and School in A1-1 Zone Los Angeles City Planning Department --Los Angeles Conditional Use Permit for the continued use and renovation, in 3 phases, of a church and private school in the A1-1 zone. The proposed project is a 10-year Master Plan to upgrade the site with an additional 25,020 square-feet of church buildings, for a total floor area of 39,207 square-feet. Phase I would add 7,220 square-feet and would include a 4,400 square-feet, 300-scat sanctuary; 2,000 square-feet of church office, which a 40 foot bell tower (120 sq. ft.)/sign, and an outdoor baptistery. The existing sanctuary will be converted to a nursery and fellowship hall. A new 500 square-foot kitchen, plus entryway would be added to the structure. The parking area would be reconfigured to provide 118 parking spaces. Floor area: 21,407 sq. ft. Phase II would add an 1,800 sq. ft. balcony that would provide an additional 100-seats in the new sanctuary. The parking lot would be expanded with 22 additional parking spaces, for a total of 140 spaces. Phase III would add a new 13,500 sq. ft., 750-seat sanctuary and a 2,500 sq. ft. passage/enclosed, which would connect all 3 buildings. The new sanctuary would be converted to a fellowship hall, and the former fellowship hall/nursery would be used for Sunday school. In addition, 60 parking spaces would be added to the parking area for a total of 200 spaces. Proposed enrollment: Sunday school. 250 maximum, Private School (Mon. through Fri.), 100 maximum. Hours of operation: 6:30 am to 9:00 pm, daily with 200 total parking spaces.	Neg	04/21/2004
2004031128	Giuffrida Tentative Parcel Map, TPM 20557, Log No. 00-13-005 San Diego County Department of Planning and Land Use --San Diego The project proposes to subdivide 10 acres into 2 single-family residential parcels measuring approximately 6 acres and 4 acres (gross). The site is off Niemann Ranch Road in the Community of San Dieguito. Grading will involve 2,800 cubic yards of cut excavation and 2,800 yards of fill. All lots will be on septic. Off site improvements include the construction of a new private road. The project also proposes the dedication of a good portion of the property into open space. The entire project will be served by the following agencies/districts: Olivenhain Municipal Water District, Rancho Santa Fe Fire Protection District, San Dieguito Union High, and Solana Beach School District.	Neg	04/21/2004

<u>Documents Received on Wednesday, March 24, 2004</u>			
2000082093	<p>Caltrain Electrification Program Peninsula Corridor Joint Powers Board --San Francisco, San Mateo, Santa Clara</p> <p>The Peninsula Corridor Joint Powers Board proposes to convert the Peninsula Commute Service (Caltrain) from diesel-hauled to electric-hauled trains and install some 180 to 200 single-track miles of overhead contact system and approximately 13 traction power stations facilities for the destruction of electrical power to the electric rolling stock consisting of electric locomotives or electric multiple units. The purposes of this project are to improve Caltrain performance, reduce noise, improve regional air quality, and modernize Caltrain. Increase in Caltrain ridership, reductions in automobile congestion on parallel routes, reductions in energy consumption, reductions in train noise, and improvements in regional air quality are expected to result. Impacts include minor loss of land currently in agriculture use, the potential for encountering hazardous wastes, noise impacts of traction power stations, visual changes, and impacts during construction. Proposed mitigation measures include notification and approvals as required by Williamson Act, traction power station enclosures and adjustments to ventilation system, use of on-track construction approach for archeologically sensitive areas, avoidance of habitat areas, coordination with utility providers and advance notice to customers, a Worker Health and Safety Plan and management practices during construction.</p>	EIR	05/25/2004
2003022083	<p>Villages at Southport West Sacramento, City of West Sacramento--Yolo</p> <p>The Proposed Project includes the request for various entitlements that would shift planned land uses on 254+/- acres of vacant land in the Southport Industrial Park from industrial/business Park to a mixture of uses including residential, Business Park, "mixed-uses", and open space/park uses. The main feature of the Proposed Project is the twelve residential villages that would be developed with residential and open space/park uses. In addition to the residential villages, the Proposed Project also includes mixed-uses development on 4.5-acres south of Southport Parkway and east of Promenade Way, light industrial uses on 12-acres immediately east of the residential villages (immediately east of Oats Street) and a 24.1 acre park. If approved, development on the project site could result in the creation of approximately 68+/- high density residential units, 815+/- residential lots, 274 +/- medium density residential units, 81+/- mixed-use residential units, 261,360 square feet of light industrial uses, and facilities associated with the neighborhood park.</p>	EIR	05/10/2004
2003081002	<p>Junipero Serra High School (South Campus) EIR San Juan Capistrano, City of --Orange</p> <p>The proposed project consists of the development of the South Campus with the minor exception of the landing of the pedestrian footbridge in the North Campus. The North Campus consists of a previously developed commercial complex located on approximately nine acres of land. The North Campus' three buildings (approximately 142,000 total square-feet) were constructed or renovated to accommodate the academic, administrative, food service and library functions for the J Sierra High School. The North Campus is not considered part of the proposed project. However, it is not feasible to separate the impact analysis of the two campuses for the following environmental areas due to modeling constraints: transportation and traffic, air quality, and noise. As a result, contribution from the North Campus on traffic, air quality, and noise have been factored into the over all</p>	EIR	05/07/2004

	assessment for the proposed project.		
2004012103	BEA Development Project for a Development Agreement (DA-BEA) and a Planned Development Rezoning (PDC04-002) San Jose, City of San Jose--Santa Clara A Planned Development Rezoning (PDC04-002) and a Development Agreement (DA-BEA) between the City of San Jose and the BEA Systems, Inc., to increase the allowed/permitted square footage on the site to a total of 2,800,000 square feet of R&D/Office uses through the allocation of floor area credits from the City's pool of transferable floor area to an approximately 41.0-acre site.	EIR	05/07/2004
2003021141	General Plan Amendment/Zone Change (PA 01-114) (aka: The Ranch Plan) Orange County --Orange The Ranch Plan is a proposed General Plan Amendment and Zone Change that would include up to 14,000 dwelling units and other uses within a development area of approximately 7,694 acres. Approximately 6,000 of the 14,000 dwelling units would be senior housing. The remaining 15,121 acres of the 22,815 acres within the project site would be retained in open space. Development is proposed to occur over a period of approximately 20 to 25 years. Infrastructure would be constructed to support all of these uses, including road improvements, utility improvements, and schools. Ranching and agricultural activities would be retained within a portion of the proposed open space area.	NOP	04/22/2004
2004031130	Adobe Estates Residential Subdivision Vista, City of Vista--San Diego The project consists of a request for a General Plan Amendment, Zone Change, Specific Plan Amendment, new Specific Plan, Site Development Plan, and Tentative Subdivision Map to develop 180 single-family dwellings, nine open space lots, street improvements, utility improvements, a recreation center, drainage improvements, landscaping, and other associated development on 53.9 acres.	NOP	04/22/2004
2004032126	Shastaina Ranch Subdivision Redding, City of Redding--Shasta Shastaina Ranch General Plan Amendment, Rezone and Tentative Subdivision Map and Amendment to the Redding Municipal Airport Comprehensive Land Use Plan (CLUP). The proposed project would create approximately 460 residential parcels on 224 acres. The remaining project acreage, approximately 20.8 acres, would maintain the existing General Industrial (GI) land use designation. Because development of the proposed subdivision will require services that extend outside of the subdivision area, the City has required the preparation of a Public Facilities Plan (PFP) that includes the proposed subdivision and the surrounding vacant land within the City that could be developed with similar uses.	NOP	04/22/2004
2004031129	ENV-2002-983-MND Los Angeles City Planning Department --Los Angeles Conditional Use for a proposed 32,911 square-foot church/school (pre - and Sunday) on a vacant lot in the [T]RS-1 zone. Hours of operation: 8:00am - 11:00 pm, daily, with 250-300 seats and 50+ students with 130 proposed parking spaces.	Neg	04/22/2004

1999041010	Bressi Ranch Industrial Carlsbad, City of Subdivision of 5 Planned Industrial zoned lots into 40 lots.	NOD	
2002111053	Site Improvements at the former Gothard Street Refuse Disposal Station Orange County Department of Integrated Waste Management Huntington Beach--Orange The proposed project is a series of construction activities to improve the 11.5 acre former Gothard Street Refuse Disposal Station. It involves importation of 16,200 cubic yards of clean soil for filling in of two existing pits and site regarding, removal of abandoned water and electric lines, slight on-site relocation of the existing gas flaring station, new grading to improve drainage, construction of sedimentation basins/storm drains, improvements of site access roads, construction of a 6-foot high block wall, upgrading the site fencing, hydroseeding and trimming of site trees.	NOD	
2003112036	LP022068 (Gan Shalom Cemetery) Contra Costa County Martinez--Contra Costa The applicant and owner request approval of land use permit for the establishment of a cemetery on a 83-acre property. The Preliminary Plans indicate cemetery uses are restricted to approximately 30 acres of property (the lower and flatter portions of the site). A private open space corridor is proposed along Pinole Creek (100-foot setback from top of creek bank is proposed). Additionally, the surrounding hills are to be retained as private open space. The only use anticipated in the hills is the construction of one or more water storage tanks.	NOD	
2004039057	Filing of NOD in compliance with Section 21108 or 21152 of the Public Resources Code Ontario-Montclair School District Ontario--San Bernardino The construction and operation of a new middle school on approximately 13.7 acres of real property located near the intersection of 6th Street and Amador Avenue in the City of Ontario, County of San Bernardino, State of California containing 8 buildings totaling approximately 90,136 sq. ft. of total building area to serve approximately 1,200 7th and 8th grade students, consisting of approximately 48 teaching stations, administrative building, hard courts, parking lots, and open turf/dirt playgrounds. 2003121008	Route 163 Corridor Management Plan Caltrans #11 San Diego--San Diego The proposed project include features to reduce the number and severity of median accidents along SR 163 between A Street and Sixth Avenue Undercrossing, to upgrade existing highway features, and replace landscaping in the scenic highway corridor.	FIN	
2003121037	Sepulveda/Rosecrans Site Rezoning and Plaza Del Segundo Project El Segundo, City of El Segundo--Los Angeles The proposed Sepulveda/Rosecrans Rezoning and Plaza Del Segundo Project consists of two components: (1) the rezoning of approximately 108 acres of property within the City of El Segundo currently and formerly used for industrial purposes to a new C-4 (Commercial) classification, hereinafter referred to as the Sepulveda/Rosecrans Site Rezoning; and (2) construction and operation of a proposed development project to implement the new C-4 zoning on a portion of the 108-acre site, hereinafter referred to as the proposed Plaza Del Segundo.	NOP	04/26/2004
2004031142	Public Safety Facilities Master Plan Los Angeles, City of Los Angeles, City of--Los Angeles Construction of 82,000 sq. ft. emergency-police-fire center, 179,000 sq. ft. jail, 40,000 sq. ft. fire station, 500,000 sq. ft. police headquarters building, 30,000 sq. ft. medical testing facility, related parking structures/lots; circulation improvements; new open space and public use amenities; upgrade/new utilities & service systems; related demolition/property acquisition/relocation.	NOP	04/26/2004
2004032138	Hay Road Landfill Solano County Fairfield--Solano A revised cover design has been proposed for the Hay Road Landfill. The proposed landfill final cover system would meet current final landfill cover infiltration standards and landfill liner system requirements. The proposed design would impact the physical appearance of the landfill by raising the peaks of the currently approved design and filling-in the associated valleys.	NOP	04/26/2004
2004031143	Porterville Redevelopment Project No. 1, Amendment No. 1 Porterville, City of Porterville--Tulare The proposed Amendment will remove six (6) parcels (the "Detachment Area") from the existing 471-acre Redevelopment Project Area. The Detachment Area encompasses approximately 26.3 acres, inclusive of streets and rights-of-way. Following the removal of the Detachment Area from the existing Project Area, approximately 445 acres will remain in Redevelopment Project Area No. 1 (the "Amended Area"). The proposed Amendment will also technically amend the Redevelopment Plan to repeal the time limit for incurring debt in accordance with recent changes in State Law (SB 211; Chapter 741 of Statutes 2001). All other aspects of the Plan will remain as previously adopted. The proposed Amendment will not affect the goals and objectives of the Project, financial limits, other time limits, or the list of approved activities contained in the Redevelopment Plan. The primary purpose of the Redevelopment Plan continues to be the elimination of physical and economic blighting conditions that hinder the full development of the Project Area.	Neg	04/26/2004

	Center Municipal Water District. Grading for the project will consist of 800 cubic yards of cut, 3,584 cubic yards of fill, and 2,784 cubic yards of import. Access to the project site is from Pleasant Knoll Lane, and existing 40-foot wide road easement from Fruitvale Road. The project is located on the west side of the southern terminus of Pleasant Knoll Lane in the Valley Center Community Planning Area within an unincorporated portion of San Diego County. The entire project will be served by the following agencies/districts: Valley Center Municipal Water District, Valley Center Fire Protection District, Valley Center - Pauma Unified School District.		
2003121008	Route 163 Corridor Management Plan Caltrans #11 San Diego--San Diego The purpose of this project is to reduce the severity of median accidents on SR-163 between KP 1.4-6.0 (PM 0.9-3.7), enhance the scenic quality of the corridor, and to preserve and restore historic elements. According to Caltrans Median Barrier Monitoring Program Reports (1997-2002), with 2003 data also included for additional project support, the actual fatal accident rate from KP 1.9-3.8 (PM 1.2-2.4) is 0.022 fatal accidents/per million vehicle miles/per year, which is higher than the statewide average of 0.016 fatal accidents/per million vehicle miles/per year and exceeds the Department's accident criteria warrants. The typical clear recovery zone for a freeway is 9 meters (30 feet), yet there are a number of mature trees and bridge columns within this zone along this portion of RS-163. The median barrier installation will reduce cross-median accidents, lowering the number of accidents and possibly the fatal accident rate for the SR-163 corridor.	NOD	
2003122013	2003 Housing Element Update Willows, City of Willows--Glenn Updating of the 1992 Housing Element of the General Plan with current information to fulfill State of California requirements.	NOD

2004021009	<p>Lake Elsinore Striped Bass Release Lake Elsinore and San Jacinto Watersheds Authority Lake Elsinore--Riverside</p> <p>For the Lake Elsinore Striped Bass Release Project, 5,000 striped bass or hybrids (striped bass x white bass cross) will be released into Lake Elsinore starting in the winter and spring of 2004. These fish will be released to determine the effectiveness of such stocking to control the threadfin shad and carp populations. Striped bass and hybrids are being proposed because they are effective predators of shad and juvenile carp and both could quickly grow to large size necessary to prey upon pelagic schooling fish like threadfin shad. Neither striped nor hybrids will reproduce in the lake because they spawn in rivers and the San Jacinto River does not provide adequate spawning habitat nor the sustained high volume of freshwater flow to Lake Elsinore required to keep the semi-buoyant eggs suspended in the current long enough to successfully hatch.</p>	NOD

	disposed of to private developers for new industrial, commercial, and residential uses. The Plan would also include improvements to infrastructure, these improvements may include streets, existing or new curbs, gutters, and sidewalks, storm drainage systems, water and sewer systems, street lightning, construction and improvement of public facilities, under grounding of utilities, improvement of existing and proposed transit facilities, bicycle paths, and extending and reconfiguring streets where needed. Other redevelopment actions may include the provision of financing for residential, industrial, and commercial development or for rehabilitation of existing structures. Assistance may also be appropriate to remediate existing hazardous wastes within the areas. The Plan may also include special development standards to infill development		
2002011114	Specific Plan No. 2001-01: North Park Village and Nature Preserve Moorpark, City of Moorpark--Ventura The specific plan project would allow for the development of 1,650 residential dwelling units on 769.7 acres of the 3,586.3 acre site. Other proposed related and supporting uses would include a 5-acre neighborhood commercial center, a 12-acre school site, a 29.1 acre public Youth Sports Park, 3 public parks, 10 private parks, a 52-acre publicly accessible lake, a 1.5-acre fire station site, and a 1.6-acre day care/church site. A 2,121-acre Nature Preserve and 423.4 additional acres of open space are a part of the project proposal. Ancillary land uses would include but are not limited to, water reservoirs detention basins, and a fire service heliport. The Specific Plan project proposes that a new interchange with the SR-118 freeway be constructed about 1 mile east of the Collins Drive interchange. A four-lane arterial roadway would connect the interchange to the Specific Plan site and provide direct access into Moorpark College. The applicant is also seeking annexation of the site into the City of Moorpark.	FIN	
2002082018	Supplemental Programmatic Environmental Impact Report for the County Transportation Expenditure Plan Solano County Benicia, Dixon, Fairfield, Rio Vista, Suisun City, ...--Solano The 2004 CTEP will be the basis for a transportation measure to be placed on the November 2004 ballot. The proposed project includes a set of transportation projects, including key arterial, highway and freeway improvements, transit improvements, and local transportation improvements. The 2004 Ctep will also include projects to improve operation of existing and planned transportation programs/projects.	NOP	04/27/2004
2004031153	Monterey County Local Transportation Sales Tax and Regional Development Impact Fee Expenditure Plan Monterey County Transportation Agency --Monterey TAMC is preparing a Transportation Expenditure Plan (TEP), which would provide funds for highway, transit and local road projects proposed within Monterey County. The TEP will be the basis for a local transportation sales tax ballot measure to be placed on the countywide ballot in November 2004. If approved, the measure would provide a new funding mechanism for the implementation of projects listed in the TEP.	NOP	05/09/2004

2004031155	Boys & Girls Clubs of Conejo and Las Virgense, Colina Middle School Site Project Conejo Valley Unified School District Thousand Oaks--Ventura The Boys & Girls Clubs of Conejo and Las Virgense is proposing a new Boys & Girls Club on the campus of Colina Middle School, located at 1500 East Hillcrest Drive in Thousand Oaks. The purpose of the project is to provide a Boys & Girls Club for use before and after the school day. Approval of a joint venture agreement between the District and the Boys & Girls Club is proposed that would provide for the joint use of the new and existing facilities at Colina Middle School. The club facilities would be available for use by Colina Middle School during the school day for academic purposes. The project consists of an approximately 10,100 square foot building proposed for development on the Colina Middle School Campus along Hillcrest Road. The project will be located at one of two proposed site locations on the campus. Site A is located adjacent to the gymnasium in the central portion of the campus. Site B is located immediately adjacent to Hillcrest Road along the northern perimeter of the campus.	Neg	04/27/2004
2004031156	Boys & Girls Clubs of Conejo and Las Virgenes, Sequoia Middle School Site Project Conejo Valley Unified School District Thousand Oaks--Ventura The Boys & Girls Club of Conejo and Las Virgenes is proposing a new Boys & Girls Club on the campus of Sequoia Middle School, located at 2855 Borchard Road in Newbury Park. The purpose of the project is to provide a Boys & Girls Club for use before and after the school day. Approval of a joint venture agreement between the District and the Boys & Girls Club is proposed that would provide for the joining use of the new and existing facilities at Sequoia Middle School. The club facilities would be available for use by Sequoia Middle School during the school day for academic purposes. The project consists of an approximately 10,100-square foot building proposed for development on the Sequoia Middle School Campus along Borchard Road. The project will be located at one of two proposed site locations on the campus. Site A is located immediately adjacent to Borchard Road along the eastern perimeter of the campus. Site B is located along the northern perimeter of the project site adjacent to the school library.	Neg	04/27/2004
2004031157	Pomerado Pipeline 4 Relining Project San Diego County Water Authority --San Diego The SDCWA proposes to install steel liner in 26,048 linear feet of existing 69-inch and 84-inch concrete Pipeline 4 within the Second San Diego Aqueduct alignment, from the southwest corner of Miramar Lake to State Route 52. The project extends generally in a north-south direction and traverses the Scripps Ranch community, Aliant International University, and MCAS Miramar.	Neg	04/27/2004
2004031158	High School No. 3 Redlands Unified School District Redlands--San Bernardino The District proposes to acquire fifteen parcels of property and to construct and operate a 2,500-student comprehensive high school campus on 56 acres of the project site. The high school would serve students grades nine through eleven in its opening year (2008) and incorporate grade twelve in 2009.	Neg	04/27/2004

<u>Documents Received on Tuesday, March 30, 2004</u>			
2004032153	<p>Subdivision 8752 Parklands 10-Pak Oakley, City of Oakley--Contra Costa</p> <p>The proposed project will consist of developing approximately 2.06 acres of relatively level land into 10 lots with associated streets, sewers, storm drains, and utilities. Each lot will be developed with either a one or a two story single-family residence. A residential street from south of the property will access the development. Approval of the proposed subdivision would result in the creation of 5 new single-family lots and 5 existing lots that were reconfigured to create the cul-de-sac. The proposed subdivision is being partially constructed in a portion of the retention basin that was approved and constructed with Subdivision 6963. The Contra Costa County Flood Control District determined the original basin was oversized and was never constructed to the maximum size shown on the tentative map associated with Subdivision 6963. The development of the lots will be required to meet the standards set forth in the Oakley General Plan, Zoning Ordinance, and the Oakley Residential Design Guidelines which establishes minimum lot sizes and dimensions, minimum setbacks, height requirements, accessory structures requirements and parking requirements. The applicant is proposing to use the existing P-1 zoning standards that were approved with Subdivision 6963.</p>	Neg	04/28/2004
1999082041	<p>Bret Harte Elementary School Expansion and Modernization Project Modesto, City of Modesto--Stanislaus</p> <p>This is an application for a conditional use permit to allow the development of a new modular classroom building for use by La Loma Grace Brethren Church.</p>	NOD
